Club BBQ & Night Squid Dive

FREE

During the months of January and February don't miss out on making a night dive or two here to see the Squid lay eggs. This

will be an unforgettable dive...coasting in the canyon at about 65-85 feet, pitch black except for your Dive light - when suddenly you spot something.... thousands of squid eggs carpet the bottom, translucent white sacks the size of your thumb. Side by side by side as far as you can see -
