

# June 09, 2012 Saturday - Oil Rigs

Board by Saturday 6:45 am—Limited to 24 Divers

## Oil Rigs

### Aboard the Bottom Scratcher

**\$125.00\***

2-3 Dives

There are numerous oil rigs found off the California coast. We visit those found in the deeper offshore waters where visibility is more consistent. A four legged structure that widens with depth, the cross-members and angle beams provide a foundation for prolific marine growth and activity. The rigs are a bustle of activity with crew boats coming and going, and the hum of the machinery going non stop. Underwater however, is a divers dream. Teaming with colorful anemones, scallops, schooling fish and the occasional pelagic, this is California diving at its best. Visibility is consistently good and great photo opportunities are abundant.

The Boat is Food & Air Inclusive / Limited to 24 Divers. Departure 6:45am-Return 4:00pm
