

Pacific Wilderness, Inc Aluminum Cylinder Filling Policy

Although many Dive shops will not fill any Aluminum Tank Manufactured prior to 1990, Pacific Wilderness has no problem filling any Aluminum Cylinder - as long as the following criteria are met:

All Aluminum Tanks:

- **Must be in Current Hydro**
- **Must have a Visual Inspection Sticker with the following:**
 - **Visual Inspection Sticker within the last Year**
 - **Visual Eddy Current Test Indicated**
 - **Name of the Dive Shop performing Test**

Additionally:

- **All Luxfer & Walter Kidde Aluminum Tanks Manufactured prior to 1990 and Hydro-Tested after January 1st, 2007 must now also have a “VE” stamped next to the Hydro Date. (This is a new DOT. Regulation)**
- **Pacific Wilderness, as policy, will stamp ALL Aluminum Cylinders manufactured prior to 1990 - regardless of Manufacturer, with a “VE” Designation if we perform the Hydro - Though not all are required.**

Effective January 1st, 2000: All aluminum tanks, including those with current Visuals, will need a “Visual Plus” rating PRIOR TO BEING FILLED. Tanks still current for VIP which require “Visual Plus” rating will only be charged for the difference of \$5.00 for “Visual Plus” upgrade.

All tanks not in current Visual will need “Visual Plus” rating at our regular rate.

**VISUAL + REQUIRED ON ALL ALUMINUM TANKS....PRICE \$10.00
STANDARD VISUAL REQUIRED FOR STEEL TANKS...PRICE \$ 5.00**
